RE: Coronavirus (COVID-19) Response

Greetings,

This past week has been a whirlwind and just like so many of you, we are adjusting daily to uncertainty of this crisis. Due to growing concerns about COVID-19, Mamatoto Village offices will be closed effective March 16, 2020. The main office line will be answered during regular business hours. However, the physical office will not be open to staff or the public. All in-person visits will be suspended, and we will shift to Telehealth visits. Additionally, we are placing a pause on new enrollment until we resume normal operations. Previously referred clients will be contacted to determine their interest, but will not be enrolled until we resume our regular course of business. Providers may continue to submit referrals through our website.

Our transition to Telehealth will not limit our staff's ability to support our clients. Active clients should contact their Perinatal Health Workers directly with any urgent needs or questions. They may also contact our main office line directly at (202) 248-3434 with any questions or concerns. If there is an urgent need between the hours of 5 pm and 8 am, clients or providers may call (202)740-9399 for support. If you believe you are in labor, you may contact your Perinatal Community Health Worker directly.

We will continue to monitor this situation closely and will provide updates to our website and Facebook as they become available. It is our goal to return to normal operations as soon as possible. In the interim, we appreciate your cooperation and support as we strive to protect the health and wellness of the staff and the families we serve. If you have further questions or concerns, you may contact info@mamatotovillage.org.

Sincerely,

Aza Nedhari, MS, CPM
Executive Director
